THE BREEDERS' MEETING.

Rain so softened the track at Rutland last Thursday that the races of the Vermont association of Road and Trotting Horse Breeders set for that day had to be postponed to Friday. Saturday morning it rained again, and in consequence the races deferred from Friday were declared off. There were only three days of racing during the entire meeting, although it began Tuesday. Friday Guy Wonder took first money in the 3-year-old race for a purse of \$300 and Earl Wilkes in the 2:20 class of pacers for a \$500 purse. Mack, son of Thought, was the winner in straight heats of the first money in the 2:18 class for trotters, purse, \$500; Marion Wilkes second and Katie Mack third; best time, 2:24.

ADDITION COUNTY FAIR.

Everything indicates that the 51st annual fair of the Addison County Agricultural society, which will be held on the grounds in Middlebury next week Tuesday, Wednesday and Thursday, will be the most successful in all respects of any the society has ever had. The grounds have been put in first-class condition, and numerous improvements have been made, not the least of which is the removal of the cattle sheds to the east side, where they will be readily accessible. Additional accommodations have also been provided for other exhibits. The entries in every department are large, and the advertising has been so thoroughly done that there will be plenty of people out to see the show.

There will be balloon ascensions and parachute drops both Wednesday and Thursday, and they will take place at reasonable hours. There will also be bicycle races on the afternoon of both Wednesday and Thursday, as also four trotting and pacing events. The official programme is as follows:

SAVES ALL THE CREAM.

We only claim that the De Laval Separator will take practically all the cream from the milk that there is in it. Hon. R. J. Jones of West Cornwall writes: "I set some of the milk from my separator and found not a trace of cream. I like the machine better and better every day."

AMAN CAN LIVE WITHOUT AIR

Almost as easily as a wire fence can without ELASTICITY. If the man was confined in an air-tight room, he would linger along for awhile, just as a fence does, supported by the trifling amount of elasticity in soft wire. The stimulant applied with a wrench to the end of the wire enables it to give a new more gasp before the final collapse. Our COILED STEEL WIRE is drawn so strong with ELASTICITY, its life is one continual SPRING, and to its owner "the member's as pleasant as may." It is made by the Page-Woven Wire Fence Co., Adrian, Mich. Wm. H. Matthews, Agent for Addison County (except Addison and Panton), Middlebury, Vt., will send circulars on application and answer all inquiries.

We have used said range under all conditions with a family of six, and it has given entire satisfaction. The hot water system in connection with the range is as good as I ever saw.
